Making Ready for a Change in Our Buying Policy

A prompt decisive clearance is needed and spectacular reductions are the methods we rely on for quick results. Read the announcement elsewhere regarding our new buying policy, and you will at once understand

We are considering neither profits nor loss in figuring the reduction on Many Lines

The result we want is to clear every last dollar's worth of merchandise from our shelves to give the New Buying Polley a chance. This Sale will give you an opportunity to save only inter goods at the moment they are wanted. Clear shelveslater will give us a chance to save for you through the agency of our new buying organization.

VERY FEW PERSONS who witnessed the producwatched the theatrical progress in the city as long or as interestedly as Miss Emily Chandler, 275 William Street, who on the 8th of February will celebrate her eighty-eighth birthday. Chatting this morning with The Intelligencer apropos of the interruption during the production of the Mikado last evening when an the production of the Mikado last evening when an infant added a mournful cry to a comi-tragic scene, Miss Chandler told of how some eighty years ago she attended the production of Macbeth staged in the then Believille Theatre, situated on George street, just back of Dr. F. W. Hill's residence in one of the ne rough cast residences. At the production of the Shakespearean play, Miss Chandler in her childish imagination thought the play to be real and screamed at the heroine's fatal walk in her sleep so vigorously she had to be taken home from the theatre.

EIGHTY-EIGHT YEARS AGO

Miss Chandler was born in the city on February 1838. a daughter of the late Dr. Edmonds Chandler and in the early days lived as nearly every one else did, in an apartment over the Doctor's office and drug store on Front street. When a very little girt her par-ents removed to England later returning to Canada and settling in Montreal where they resided for some ten years, the only time in her more than three score years and ten Miss Chandler lived otherwise than in Belleville. While in England an amusing incident oc-curred when Miss Chandler's nurse was stopped in the park and asked who the little girl was. When the

Ochs, publisher of The New York Times, told advertising men. at a luncheon of the Advertising Club that every issue of The Times conto the owners \$50,000, or approximately 14 cents a copy.

Mr. Ochs said that the present advertising rates tend to cheapen the newspapers, and expressed the belief that higher rates would improve the contents of advertisements, because advertisers would improve their advertis-ing. He suggested that advertisers should spend 90 per cent. of their appropriation in keeping existing customers, while 10 per cent. should be used in getting new cus-

Thanks to the swiftly climbing sales and steadily swelling production volume of Chrysler "889" new and greatly lowered prices are made possible which render the "89" more unmistakebly than ever the value supreme in its cleas.

Chrysler "58" sped far away from all pos-sible competition months ago in its own low priced field, outselling everywhere when it provided such striking perform-ance features as 58 miles an hour, 30 miles to the gallon of gasoline, and a pick-up of 5 to 25 miles in 8 seconds.

Precisely the same quality - precisely the same performance - precisely the same fine appearance - pre cisely the same beautiful body and chassis at these new prices deal a body-blow to anything even remotely seeking comparison with the "58", which will instantly be recognized, with a thrill of delight, by every student of motor car values.

Toronto, Ont. Jan 14 - That Separate Schools of On Toronto, Ont., Jan. 14.—That Separate Schools of Untario were entiled to public grants without any of the restrictions imposed on public schools receiving grants, was the contention presented by L.F. Hellmuth, K.C., counsel for the Separate Schools, when the hearing of the petition of rights of the school board of the Township of Tiny, was continued to-day before Mr. Justice Rose. Rights of Separate Schools to grants without having to fulfil any conditions were based on section \$3 of the British North America Act which prohibited any prejudice being done to the rights of minorities where such rights were rocognized at Confederation. These rights' were in Perpetuity, Mr. Hellmuth claimed.

The resources t the striking miners having been enhanced, they and self, families are dependent upon relief organizations on and depression hangs like a pall over a scor-ommunities that basked in the sumshine of conand prosperity air months ago. Whether the are to blame for to day's drab picture or the miner representatives are responsible for it is difficult to judge, but both parties are equally ble in permitting the condition to permit when it is appeals in permitting the constraint to persals when a peagarent that by the exercise of ordinary common sense they could have effected a actilement long ere this. Here is Clands, we can not take any other part than that of takenly interacted onlockers, but our American cousins have it in their power to end the anthracite strike and make a repetition of it impossible. It has been demon-strated that so long as the industry is not subjected to state or federal regulation permanent peace and uninter-rupted production cannot be depended upon. The hour to make an experiment with another remedy struck yesterday when the conference at New York collapsed.

THE FUEL PROBLEM

It is said that parliament will be asked at the present session to fix a freight rate. For the transportation of coal from Alberta to Ontario which will enable Alberta coal to compete with American anthracite, on which many of the people of Ontario have learned to depend It is pointed out that experiments already made in Or tario with Alberta coal have shown that it would be quit eceptable to the people of this province as a substitu racite if the price could be made right.

The fixing of freight rates looks at first sight like on of the problem; but it must be temembe that the railways exist for the accommodation of the po pie of all parts of Canada; and it is easy to see how ob pection might be rised to the fixing of rates which would mean special favors to the people of Ontario at the ex-pense of the rest of the dominion. It is to be hoped however, that whether or not it is found desirable or possible to fix freight rates for Alberta coal which will enable it to compete successfully with American anthra te, attention will not be diverted from the fuel prob-m until a satisfactory solution has been found. It is matter of too great importance to be triffed with,

The amendment to the act is designed to prevent rash marpiages, those entered into on the spur of the moment or which are the developments of sudden infatuations. Few such hurry-up marriages have happy endings, the secords of the divorce courts reveal, and the windom of specifing the three-day-notice clause will be challenged by those who recognize it to be a check on the impet-tores. Much more to be preferred than the abalition of the Wigle act would be the revision of it to provide for exceptional cases, such, for instance, as the one Eastern Ontario to which we have referred.

Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your money.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

Advertising removes all doubt from the buyer's path.

Rome, Jan. 30.—Disarmament conference at this time would be dangerous declares the Fascist newspaper Il-tevere which asserts that the moment is all-chosen both for spiritual and practical reasons "Postponement is neces sary", it adds, "because the atmosphere must be well pur ified of the Locarnesque intoxication, so that the language at the Geneva conference may be less lyrical and closer t reality."

MOST PEOPLE CHRIOVED JUST BEFORE ELECTION

Ottawa, Jan. 20 .- Steady recovery in industrial employ ment marked the year 1925, according to a report just is-sued by the Dominion Bureau of Statistics. Working forces of approximately 5,900 firms reporting averaged 761.131, varying between 690,538 on January 1, 1925 and 809,072 on October 1 last. The index number on the latter date was at its highest point for the year, standing at 98.3 in 1924, the peak of employment was reached July 1, when the index was 95.9.

The American nation must accept responsi-bility for those promises, William declares, as an hon-orable employer would accept responsibility for the piedg es of an employee. It is not possible in international ethics for a nation to derive all the advantages arisin from the solemn promises of its chief executive and the turn round and reject those promises as unauthorize and invalid. If the German people consider themselve betrayed by the action of American politicians, who about the other European countries? What of France Italy and Britain? Germany was saved from extermina tion by the fourteen points. The armistice came at a time when it was in the power of the allies to grind the German nation in the dust. The repudiation of the Wil on program by his fellow-countrymen has been m a disappointment to the victors in the war than to the conquered, and the allies are the more aggrieved. The kaiser's explanation of his abdication is certainly

Guides

NAD

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your meney.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

> Advertising removes all doubt from the buyer's path.

STIRS BRITISH LABORITES

London, Jan. 21—A. J. Cook, general secretary of the Miners Federation STIRS BRITISH LABORI is in his power last year to much the Labor government. London, Jan. 21.—There is a rush in recruiting for London police, says the Daily Herald, Labor-Socialist organ It is the intention of the authorities, according to the news It is the intention of the authorities, according to the newspaper to accelerate recruiting during the next few weeks until 100 men are obtained weekly. The Herald desires to know the reason for this extraordinary increase in the cost of the police force while the government is preaching the necessity for economy in public expenditfier. It hints that enlarging of the police force is in preparation for expected labor troubles next May.

BOASTFUL PLEBIAN

EXPOSED PLOT ON KING'S LIFE Belgrade, Jan. 22.—Discovery of a plot against the lives of King Alexander and his cabinet ministers is believed to be behind the sudden declaion of Premier Pachitch to re-turn from the Riviera where he went on January 10 for an announced lengthy stay for his health. Police are con-tinuing their widespread raid upon homes of known though their whoespread raid upon homes of known Communists and the number of porsons arrested had swelled this morning to 590. The plot against the King and members of the government is said to have been revealed by the arrest of a workman in Eagrab. The workman was spending money lavishly, boasting that he had received 250,000 dinars from Moscow as part payment for work to be executed. He declared, according to the police, that he received the funds through M. Philipovitch, leading Jugo-Slav Communist who for the past year has been a resident of Moscow.

HIS HONOR'S DECISION A REVERSAL OF FINDING OF MAGISTRATE BEDFORD OF NAPANEE-NO "COMMON CARRIER" INDICATED - SHIP-MENTS "TO CUBA", BY SMALL BOATS

The right of brewers or distributors to maintain fidure as-port warehouses along the line of the international boundary, or at the Lake ports has been dealed by Judge George E. De-rochese, in an appeal court decision, just handed down in the case of Harry Robinson, charged under section 41 of the On-

case of Harry Robinson. enarged under section 4 or the Co-lario Temperance Act, who privides that no person may keep liquor in any place other than his own dwelling. Judge Deroche's verdict is a reversal of the Deseronto Police Magistrate's finding. Magistrate Henry R. Bedford orig-inally dismissed the Robinson case and another. It was at the instance of Attorney General Nickle that appeals were taken,

as test cases, to the Hastings County Judge.

The finding of Judge Deroche in the other case, that of O'Keefe's will appear in The Intelligencer to-morrow.

TRANSFER TO BOATS In the Robinson case the National Breweries Limited sold iquor to Harry Robinson of Havana, shipped from Montreal by car to Deseronto, for transference to boats."

This liquor was taken from the railway company by Rob-ason's agent and stored, later being shipped to Cuba in small quantities from time to time. The defendant claimed he was covered by Section 154 for the Canada Temperance Act which rovides for the transportation by common carrier : of liquor

ugh the province.
Judge Deroche ruled against this interpretation of the Act. on the ground that there was no evidence of a common carrier

Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your meney.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

Advertising removes all doubt from the buyer's path.

A Dutchman was recently expat-lating on the folly of giving women the vote. He declared that in Hol-land there was greater efficiency smong the female sex where they did not possess the franches. And he pointed to the fact that the Dutch churn and with the other rocks the crad'e containing the twins; with her hands she knits socks for her busband, while on her knee rests a book from which she is improving her mind by study. And all the while she sits on a cheese pressing it for market.

IS GLAD TO GET HOME HAS A MURDER RYSTERY

New York, Jan. 25.—An unusual murder mystery in the slaying of an English butler in the doorway of the home of James R. Deering, a socially prominent attorney, has invaded one of New York's exclusive residential streets

> The butler, Herbert Bramall, who had served in several well known families was found in full livery last night in the vestibule of the Deering home a few moments after he had answered a door bell. He was shot close to the heart and was instantly killed. His slayer had disappear ed, alamming the heavy plate glass door with such violence that it was cracked. An empty pistol shell is the only tan-gible clue thus far found.

JOHN BARLEYCORN

JOHN BARLEYCORN
RE-ENTHRONED, WALLS BEN
Buffalo, N.Y., Jan. 25.—"There is no such animal as Government Control of liquor traffic," Rev. Ben. H. Spence,
managing director of the Canadian Prohibition Burgau told a prohibition enforcement meeting held here to-day under the auspices of the anti-saloon league of New York. He warned the United States against moderation and modification of the Volstead Act and said, "The letting down of restrictions in Canada with ultimate partnershop be tween brewers and government had led to an unholy al-liance of liquor and politics that had re-enti-roned John Barleycorn."

Ford Introduces National Payment Plan

· For twenty-one years the Ford Motor Company of Canada, Limited, has pioneered in the field of motor transportation, doing everything possible to . make high quality cars easy to buy and economical to own, in order that the greatest number of people may enjoy the benefits and advantages of owning a car.

In line with this policy, a new and unique time payment plan has been inaugurated which makes it possible for more people to own Ford cars.

This is called the National

Te Tanie

Time Payment, Plan because the payments are the same anywhere from Halifax to Vancouver.

Through this plan you know definitely in advance, the amount of the down payment and the installments required to buy the car you want.

You pay only the advertised amount-no more. All Ford models are now obtainable on this plan from your local authorized Ford dealer in conjunction with Traders Finance Corporation, Limited.

And still Lower Prices on all other Passenger Cars

With the introduction of this new Sedan, Dodge Brothers (Canada) Limited, give to the Canadian public a five-passenger, four-door, closed Car at a price startlingly lower than they have ever been able to offer.

Coincident with this announcement, and following closely the price reductions of January 7th, comes a still further reduction in the prices of all Dodge Brothers Passenger Cars, effective January 26th, 1926.

These reductions are made possible through economies effected I nege reductions are made possible through economics effected in manufacturing processes and enormously increased production. At the same time, the high qualities of material and workmanship, which have given Dodge Brothers Motor Care their reputation for Dependability the World over, have been fully maintained—Dodge Brothers product to day is better than ever before. Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your

Head Office Rolleville Office No. 1 St. Clair Ave. W. Toronto Phone 1003 Phone 5244 C. W. Bennett, Manager

A Statement to the Subscribers of The Bell Telephone Company

of Canada WE have filed with the Board of Railway Commissioners for Canada new schedules of rates for exchange telephone service.

These schedules call for increased rates for service, and provide for some decreases. They correct inequalities in present schedules. They are designed to distribute the charges in the fairest possible way, according to the service rendered.

These new rates are necessary because-

- [1] We must earn a reasonable rate of return on our property. The growth of the business within the list few years, particularly in the lower rate party-line residence service, has had the effect of materially reducing net earnings per telephone;
- [2] Large additions to plant at prices practically double pre-war levels, have greatly increased fixed charges;
- [3] The rate of depreciation adopted as a temporary measure after the hearings before the Board of Railway Commissioners, is now known to be inadequate to protect the invest-

The demand for telephone service is continuous We are planning extensions and betterments for the next five years, which are estimated to cost \$87,000,000.

To obtain from investors the money to finance this large programme, the credit of the Company must be maintained.

We invite your careful reading of the booklet "Telephone Service and Rates," which has been mailed to all observices. It shows the necessity for raises which, while safegrowing the community's telephone service, will produce revenues sufficient to pay proper wages to our 14.000 employees, provide a fair return to those who have invested their savings in our stock, and maintain public confidence in the stability of the enterprise.

Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your money.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

Advertising removes all doubt from the buyer's path.

Telephone Rates at this Exchange

THE following table shows the principal rates now in effect for this exchange, and the new rates for which we are asking the approval of the Board of Railway Commissioners:—

	Present	Proposed	Monthly
Business Service	Monthly Rate	Monthly Rate	Increase
Individual Line	\$3.08	\$3.75	.67
2-Party "	2.46	3.00	
Residence Service Individual Line 2-Party "		\$2.50 2.00	07

It will be seen that in order to bring the city's telophone rates into line with our proposed new schedule, the rates for residence service, both individual and 2-pary rates for residence service, both individual and 2-party is of our patrons will pay less than heretofore, and the result will be to encourage the development of featlence services.

sult will be to encourage the development of residence service. Merchants and business men, while asked to pay a slight-ly higher rate for business telephones will benefit in the enlargement of the scope and value of their service by the development of residence telephones. We believe our patrons will agree that to maintain and ex-tend a service vital to the welfare of the community far outweighs in importance the moderate thereases a rela-tively small number of our citizens will be asked to pay.

DICTATOR'S OPINION Premier Mussolini says that parliamentarism as it

in free, democratic countries, is on its last legs; reints in free, democratic countries, is on its last legs; it has served its purpose and had its day, and now some-thing new must be tried. The novelty in government he has in mind is, of course, a system of dictatorably similar to that he has succeeded in establishing in Italy, It has been tried out for ages and discarded long ago a arliamentary system which superseded it has been sticersive stages of development and is subject cation and improvement to meet the changing to of the people, by the people for the people, is a mate twenty-five million copies per anum riple which has come to stay. The parliamentary contain artists and stories about the United hold may be 'embrous, it justy lead to exasperating flexing the opinions of its people; directing the mixed yets tilmes and may been invited heavant but if time of 'excess about lattice blaces channels of thought, and a, however importedly, in the histories of the point about the point of waver wise and however benevolent, remains a dic-ing soverning by the imposition of his opisions on the ada ten milion dollars would be added annually to the sator; governing by the imposition of his opagons on we willing and unwilling alike. If parliamentarism, as it axists today, is dybng, absolution is aiready dead. This solution of the problems of damocratic government is so be, found, not in rejecting parliamentary practice, but

in vogue is undentable. Canada is just now giving an example of some of them. France is indergoing a series of crises; Spain has thought it expedient to follow the Italian example; Germany has gone far in the direc-tion of a dictatorship at times. These events may point to a secondition which is not altogether satisfactory, but es not mean that parliamentary government has a bottle of medicine."

THE BANCROFT HOSPITAL

The news that generous subscriptions have already en made or voted for the support of the Bancroft Red coss hospital is welcome. Mr. Walter Wiggins is the Creas hospital is welcome. Mr. Walter Wignes is the main behind the movement and that alone was almost mought for ensure the project being, as the saying is, put across. There is of course no question of the need as there is no question of the good work such an institotion will do from the moment it is first in operation ern people themselves have generously supported oject. They know the great good it will do; it might conceiveably save their own lives some day.

Hence contributions. People in the south of the county also helped and so, the thing is assured.
